We would like to take this opportunity to introduce Eagle Construction Solutions, Inc. We have over 25 years of construction expertise.. We started out as a landscaping and grading contractor working with home builders and businesses in Southern California and rapidly grew to become a trusted and successful corporation. Our first opportunity to do Golf Course work came in 1999 at the S.C.G.A. course in Murrieta Ca.. We quickly discovered our experience and professionalism was a great fit with the golf course industry. With our ability to work with your in house staff, we can handle all your construction needs from building your new club house, lakes and waterfalls, to cart path and bridge construction. We are licensed with the California State Contractors Board as an A, B, C-12 and C-27 contractor and carry all the required insurances.

We own the necessary equipment required to meet all your building needs, including grade tractors, water trucks, trenchers, skip loaders, backhoes and loaders as well as a full line of dump trucks. Our experience ranges from custom single family homes to full-scale commercial projects and golf course improvements.

Our staff has the expertise necessary to bring your project in on schedule while keeping a watchful eye on the details. They are all professionals, conscientious of their work and are courteous to fellow workers as well as mindful of appropriate golf course etiquette. We are committed to a high quality of work and meeting our customers schedules, we get the job done right the first time.

I hope you will consider us for your next project. When comparing the size, quality of work, condition of equipment and the experience of our staff to the competitors, our cost is a better value for you. We have the expertise to do your project from start to finish, but our niche is to allow you to help on as little or as much as you choose.

Eagle Construction Solutions, Inc. is looking forward to working with you on any projects that you may have.

Respectfully,

Robert Metheny

John C. Flaa

Whatever the Project Whatever the Budget.... We Are The Solution
